

SYRACUSE, N. Y., Sept. 21.—The Tammany Hall men have just held a meeting at which it was decided to send a committee before the committee on contested cases to ask for a representation on the convention, on the basis of a division of delegates among the three wings of the party. The committee appointed to present their case consists of Edward Kearney, F. B. Spindler, Alderman Sauer, Sidney P. Nichols, Senators Grady and Veanor, E. C. Wood, H. J. Gumbleton, J. H. Boyd and George L. Ingraham. The Irving Hall delegation took similar action and appointed a committee of twelve including ex-Judge George Mc. Curtis, C. W. Brooks, ex-Senator Luke Cozens, W. E. Cochran.

The state convention was called to order at 12:15 by Daniel Manning, chairman of the State committee, who presented the name of Rufus W. Peckham for temporary chairman, in behalf of the State committee.

The convention ratified the choice of the committee without dissent. On being presented to the convention Mr. Peckham was greeted with much applause, and on taking the chair thanked the convention for the honor conferred upon him. He said: What is said by me will be of much importance. What is done by the convention will be of the greatest importance. Three years ago the Republican party nominated for Governor A. B. Cornell. The Democratic party nominated Lucius Robinson, doing what it thought wisest and best for the party, but owing to unfortunate divisions, our candidate was defeated. Cornell is said by many Republicans to have conducted a wise administration, but the Republican party has set aside Governor Cornell, and at the dictation of the Federal administration, the government has nominated Chas. J. Folger. He has not been nominated on account of his personal power, but because he is a representative of Federal power and Federal patronage. Within one year from the death of President Garfield, we find that the Federal administration is forcing a candidate upon the Republicans of the State. This is the Democratic opportunity. We want to nominate a man here who will draw, in addition to the Democratic vote, the vote of the half breed, or independent Republicans of the State. [Applause.] Never has the Republican party wielded the civil service power more basely than since C. A. Arthur became President, by the belief of an assassin. We arraign the Republican party for its subservience to the money power of the country, at the dictation of J. P. Gould, that arch conspirator of Wall street. With a surplus of millions in the national treasury, we find that the Republican party has refused to do anything to relieve the tax-payers of the country.

Daniel S. Lamont was made temporary secretary. The credentials of the three contesting delegations from New York City and a protest from the Tammany delegation, in addition, were referred to the credentials committee, when appointed. A resolution was adopted that the credentials committee should be composed of one member from each Congressional district, to be appointed by the chair.

The following resolution was adopted: Whereas, We recognize with regret the existence of serious differences among the Democracy of the County of New York, and whereas, these differences relate merely to party organization, and not to questions of principle; therefore, believing that a common desire for the triumph of Democratic principles in the State and nation animates the entire party in said county,

Resolved, That this convention respectfully and earnestly appeals to each and every one of the various Democratic organizations from the city and county of New York claiming representation here to appoint committees to confer with each other with the view to agreement upon delegations from the various assembled districts of said county to be presented without contest.

Resolved, That the foregoing be referred to the committee on contested delegations with instructions to submit the same.

After the appointment of committees on credentials, permanent organization and resolutions in accordance with the resolution first quoted, the convention took recess until to-morrow.

Yellow Fever.

WASHINGTON, September 20.—A telegram to the National Board of Health from Pensacola reports 26 new cases of yellow fever there yesterday, and 4 deaths. They are sending all the patients they can to the hospital, in order to reduce expenses.

A telegram to the Surgeon-General of the Marine Hospital Service reports 19 new cases and 4 deaths at Brownsville, Texas, Monday, and 14 cases. No deaths yesterday. The city is full of Matamoros people.

WASHINGTON, September 21.—The following telegram from the yellow fever district has been received at the office of the Surgeon-General of the Marine Hospital Service: BROWNVILLE, TEXAS, Sept. 20. The quarantine against Matamoros was raised by Mayor Carson, and the guard arrested for stopping the ferry. Our guards are sustained by the State authorities the cordon is futile, and should be disbanded. The same conflicts must arise along the whole line. Restrictions here under our control are necessary to prevent the influx of paupers and new material, and the progress of the disease into the ranches.

[A copy sent to the Governor.]

MURRAY, Surgeon.

COMBIE, Health Officer.

CORPUS CHRISTI, TEXAS, September 21.—Surgeon Murray telegraphed to me that he thinks there is no yellow fever above his cordon. The whole Mexican side is infected to Mier. We think there is no danger south of us, but there is great danger from the upper Rio Grande. Families crossed from Mier before yellow fever was reported. Some came as far as San Diego, and were topped by our guards. It is too late now to move this cordon, and it should be strengthened from San Diego to Laredo. If this line is not strong the fever will extend to Southern Texas and the coast towns.

SPRING.

BROWNVILLE, September 21.—The following telegram was received from Governor Roberts: "Have sent the following telegram to Mayor Carson: Surgeon Murray and Health Officer, Combie have entire control of the quarantine against Mexico. They can modify it if they wish but they cannot suspend quarantine until authorized by proclamation."

MURRAY, Surgeon.

GOULDING, Deputy Collector.

AUSTIN, September 20.—I have invoked all the power of law and sustain your office (Dr. Murray) at Brownsville, and trust the State will continue to have his valuable services.

O. M. ROBERTS, Governor.

Boiler Explosion.

LACUNA, September 31.—The boiler of the ferry steamer Richline exploded this morning, killing Perie Duquette, the pilot, James Richardson and Persellins Anyot, of Chas. Leary. The former is the pilot's son. He is missing, and it is reported that he was blown overboard. Several of the passengers were severely scalded by escaping steam.

Cruelly Beaten.

CINCINNATI, September 21.—A special from Fort Wayne, Ind., to the Times Star says: Mrs. W. W. Warden, after having been cruelly beaten by her husband, set fire to her house and threw herself into the flames. She was rescued by a policeman, but was painfully injured.

Struck by Lightning.

TECUMAH, ARIZ., September 20.—A special from Guaymas says that at Concedia, a town near Mazatlan, five people were killed in a church which was struck by lightning. A number of other persons were severely injured in the rush to escape.

MINOR DISPATCHES.

PITTSBURGH, September 20.—The executive committee of the Iron Manufacturers' Association and the representatives of the Amalgamated Association of Iron Workers met this afternoon, and upon the presentation of the old scale by the latter it was signed by the manufacturers. The fires in the mills will be lighted immediately, and all will be in operation within a few days.

GLAXTER, September 21.—The News-Ledger special says quarantine has been declared against New Laredo, Mexico.

JACKSONVILLE, FLA., September 21.—It is announced to-day that the land of Diston's four million acre purchase will be thrown open October 1st, for sale at the government price of \$1.25 per acre.

THE EGYPTIAN WAR.

LONDON, September 20.—The Times this morning says that it understands that Sir Edward Malet, British consul-general at Alexandria, has been directed to inform the Khedive that no capital sentence passed on the Egyptian leaders must be carried out without the consent of Great Britain.

The Times, in its leading article, says: "There can be no possible question that whatever may be the ultimate solution of the political problem, the Khedive must, for a considerable time, lean upon the force which has destroyed the rebellion. Large numbers of our troops will no doubt remain home, but there must remain a sufficient force to overawe the disaffected. We may go further, and say that the organization of a permanent force for the maintenance of order must proceed under English direction."

CAIRO, September 20.—evening.—The review of the British troops on the arrival of the Khedive will be an imposing spectacle. It is expected that about ten thousand men will be in line.

The Swiss regiment which is a prisoner, denies aiding Arabi in constructing defenses. He maintains that he confined himself to the ambulance department, and says he wished to serve only under the Geneva cross.

CAIRO, September 20.—A large deputation of Ulemas waited on Gen. Wolsey yesterday and assured him that no attempt would be made to excite the religious feelings of the people against the British. Arabi Pasha has again asked for an interview with Wolsey, but the latter declines to receive him. Arabi's house has been looted, chiefly by servants of Sultan Pasha.

ALEXANDRIA, September 21.—The report telegraphed from Cairo that Abdelhal Pasha had been shot by his own soldiers is unconfirmed.

LONDON, September 21.—A Cairo dispatch says: Arabi Pasha asserts that all his acts were done at the instigation of the Khedive and Sultan, and that he was unable to restrain the Egyptian army from fighting. His office has been searched and important documents found. Thirty fanatical sheikhs have been placed in custody in the citadel.

NEW YORK STATE REPUBLICAN CONVENTION.

SARATOGA, September 20.—The Republican convention met here to-day. The first test of strength was on the selection of temporary chairman, and resulted in the choice of ex-State Senator Madden, of Folger man, by a vote of 251 to 243. After the committees were appointed a recess was taken until 3 o'clock.

Senator Madden was made permanent chairman, and after the organization was completed the convention proceeded at once to the nominations and the following persons were placed in nomination: Secretary Folger, G. V. Cornell, Jas. W. Wallworth, John H. Madden, Folger man, by a vote of 251 to 243. After the committees were appointed a recess was taken until 3 o'clock.

The first ballot resulted as follows: Folger, 233; Cornell 180; Wallworth, 69; Starn, 19; Robinson, 6; necessary to a choice, 249.

The result was received without any demonstration, and the convention at once settled down for another ballot.

While the second ballot was in progress, there were changes of votes from the other candidates to Folger and Cornell. Finally Wallworth's name was withdrawn, and Folger secured the nomination.

SARATOGA, N. Y., Sept. 21.—Carpenter was nominated for Lieutenant Governor by the Republican convention.

A. B. Heppner, of St. Lawrence County, was nominated for Congress at-large.

The resolutions were adopted without discussion and unanimously, some of them being enthusiastically applauded.

The platform approves of equitable taxation, reaching corporations as well as persons; declares that monopolies, oppressing the people or discriminating unfairly against local interests, should not be tolerated; that legislation should be enacted to secure purity and honesty in primary elections; that propositions for changes in fundamental laws should be submitted to the popular vote; that it is the policy of the party to bring taxation within the lowest practicable limits, and that the civil service should be placed upon a popular basis, with a fixed term for the incumbents, whose removal from office during the term

of office shall be only for cause. The anti-polygamy law is approved. The platform commends Governor Cornell's course, and expresses confidence in President Arthur's administration and admiration for his courage in resisting the enactment of the river and harbor bill. Adjourned sine die.

The Recent Elections.

AUGUSTA, Me., September 19.—The Chronicle Journal publishes this morning full official returns from all the State, except from six small plantations, the vote of which will change the result but little.

Total vote 138,175; Robie, 72,554; Plaisted, 63,756; Chase, 1,298; Vinton, 262; Easius, 305; Robie's plurality, 8,798.

The Republican candidates for Congress are elected by pluralities little in excess of that for Governor.

The Republicans carry 14 of the 16 counties. Of the senators, 28 are Republican and 3 Fusionists. Of the members of the house, 108 are Republican and 41 Fusionists. In two districts, the elections are not yet determined.

LITTLE ROCK, September 19.—Official returns of the State election show the following vote: For Governor—Berry, Democrat, 87,695; shock, Republican, 49,032; Garland, Greenbacker, 10,142; total vote, 147,169, the largest ever polled.

The second district Republican Congressional committee nominated Judge John A. Williams, of Jefferson for Congress. The Greenbackers recently declined to make a nomination, and an effort is on foot to make a fusion, the Republicans in the late election having cast a large vote for the Greenback candidate for Judge and county officers. Nearly all the Greenback strength of the State is in this district, which contains also a heavy Republican vote.

THE TARIFF COMMISSION.

NASHVILLE, September 21.—Five members of the tariff commission, Hayes, Boteler, Underwood, Oliver and Garland arrived here to-night from St. Louis. A reception was given them at the residence of Mr. Colyar, where many prominent citizens assembled to greet them. Afterward a formal session was held in the parlors, and various opinions on the tariff expressed.

Mr. W. H. Jackson, a former General in the Confederate Army, and who is now engaged extensively in farming and cattle-raising, appealed for such reduction of the tariff as would do justice to the agricultural interests of the people. He wanted farmers protected against protection. J. B. Killebrew, who is engaged in the iron business, wanted the tariff on iron and steel left alone, because if it was raised the large capital that would be invested in the business in Pennsylvania would effectively crush out the business in Tennessee.

The commission left for Chattanooga after midnight.

NORTH CAROLINA'S DEBT.

RALEIGH, N. C., September 21.—The commissioners appointed to adjust the North Carolina debt, incurred to aid in the construction of the North Carolina Railroad, report that \$1,000,000 of bonds have been redeemed out of a total of \$2,750,000. The October interest will be payable at the National Bank of the Republic, New York.

FOREIGN.

VIENNA, Sept. 21.—Ali-Geneine Zeitung has received a telegram announcing the arrival of Henry M. Stanley, African explorer at Lisbon.

PORT SAID, September 21.—Nearly all the garrison of Port Ghazaleh, before its surrender, fled in boats across Lake Massalah. The British gun-boats have proceeded from Ghazaleh in the direction of Port Dohab and Damietta.

LONDON, September 21.—A dispatch to Reuters' Telegram Company from Port Said, dated to-day, says: Fort Ghazaleh has surrendered. The garrison was forced to accept only eighty men, the remainder of the force having gone to Damietta last evening.

ALEXANDRIA, September 21.—Several fresh arrests were made to-day. Among the persons arrested is said to be Bey Gaudiel, who was the prefect of police of Alexandria, on the 11th of June, the day of the first massacre. He has been placed in irons.

The Trade Palace.

The most attractive and elegant establishment in Knoxville is the "Trade Palace" of Young & Williams. It is in fact one of the most attractive establishments of its kind in the South, the superb and tastefully arranged stock, claiming the attention of all who see it, and a visit to this "Palace" is always pleasant and interesting.

The place is a large front and show windows, filled with choice goods and novelties, nobly, late and stylish, attract the attention of all who pass, and is alone worthy of a visit.

The large stock of beautiful goods purchased by Mr. Lambright, on his recent trip North, have arrived, are tastefully arranged for display and inspection, and excite the admiration of the ladies who have seen them.

The richest velvet softest plushes, the most elegant black and colored silks are displayed in great profusion and are wondrously beautiful.

In the millinery department, no store in Knoxville can show as handsome goods, beautiful bonnets, elegant hats, lovely feathers, flowers, ribbons, etc., as can the "Palace."

Mrs. Say on her recent trip surpassed all former efforts when she purchased these goods.

The management of the Trade Palace propose to have this fall and winter the largest trade ever done in the retail dry goods business done in Knoxville, and from present appearances they will succeed, for their store is crowded all the time.

Ladies would serve their interests by calling early and making first selections from these fall goods. Young & Williams are agents for the sale of Miss Demore's celebrated patterns, the best and most reliable patterns sold. Ladies, call and see the new goods.

A Defaulting Circus Man.

COLUMBIA, S. C., September 19.—W. A. Maybury, one of the proprietors of the Maybury, Pullman & Hamilton circus, which was attached here last week, absconded last Saturday with a large amount of the company's money. It is said the amount will reach twenty thousand dollars. As soon as Maybury's default was discovered, a warrant was issued for his arrest and detectives were placed on his track. To-day he was arrested at Montgomery, Ala., and will be brought back to Columbia by rail.

MARKETS BY TELEGRAPH.

New York Stock Market.

New York, September 21.—11 a. m.—The stock market opened weak, and 4 1/2 per cent. below yesterday's closing prices. The market continued weak, and a decline of 1 1/2 per cent. was recorded, in which Delaware, Lackawanna and Western, Louisville and Nashville, Omaha, preferred, and Union Pacific were most conspicuous.
